There is a direct exit to the lake, where our beloved and esteemed guests have the opportunity to rest, entertain and recreate on the floating beach. Among other activities we organize rafting on the river Neretva. We have 10 rafting boats fully equipped and superbly trained skippers. In the canyon upstream from Konjic, the Neretva is suitable for rafting. Track length for rafting on the Neretva from Glavatičevo to Konjic is about 23 km. Beautiful canyon and waterfalls, which are seen when rafting descent, contribute to the atmosphere. Rafting ends in the village Džajići, 4 km from Konjic.

The team of trained professionals takes care of your safety. All skippers in the "Eco Village" have undergone rigorous training and poured all of their love into the river Neretva. To enjoy rafting tour on the river Neretva, it's enough just to bring high spirits and desire for a good adventure. Each participant is given a mandatory rafting equipment (helmet and life jacket), and in the case of rainy and chilly time, the neoprene suits. Rafting start is located in Glavatičevo, ten minutes away from the "Eco Village". There the adventure begins.

A special pleasure is brunch in the canyon of river Rakitnica. Each participant is given a lunch package - energy meal, in order to gain energy to continue the descent to the beach Ljuta, Džajići.

For a number of years we successfully organize team-building programs for employees of numerous companies, members of trade unions, associations, governmental and non-governmental organizations, and others, in Bosnia and Herzegovina and the region. Team building contributes to increased employee loyalty, a better understanding of the team members, reducing barriers between members, recognizing different talents in the team, increasing the personal satisfactions of employees, better communication between members and teams, as well as the development of mutual support, enthusiasm and mutual caring about people.
